

SETH LOKOU

Information Technology Professional | Full-Stack Web Developer

Accra, Ghana | 0598799725 | Sethinlokou5@gmail.com

PROFESSIONAL SUMMARY

Results-driven IT professional with proven expertise in full-stack web development, specializing in PHP, Laravel, JavaScript, and SQL databases. Skilled in designing and deploying scalable, high-performance applications, including e-commerce platforms and enterprise systems. Adept at diagnosing complex technical challenges, optimizing system performance, and ensuring software quality through rigorous testing. Committed to delivering user-centric solutions while continuously advancing technical proficiency.

WORK EXPERIENCE

Software Developer — Shring Ghana Limited

January 2024 – June 2024 | Accra, Ghana

- Developed and maintained scalable backend systems using Laravel, improving system reliability and performance.
- Administered IT infrastructure (PCs, servers, networks), ensuring 99% uptime and operational continuity.
- Collaborated with cross-functional teams to deliver projects on time, strengthening communication and coordination.
- Applied software testing methodologies to validate functionality, reducing bugs and enhancing product quality.

EDUCATION

Bachelor of Science — Information Technology

Ghana Communication Technology University (GCTU), Accra

2022 – 2026 (Expected)

West Africa Senior School Certificate (WASSCE)

Saint Thomas Aquinas Senior High School

KEY PROJECTS

E-Commerce Web Application

Technologies: Laravel · PHP · JavaScript · React · SQL · HTML · Vite

- Designed and deployed a full-featured e-commerce platform with product catalog, shopping cart, and order workflows.
- Built a robust RESTful API backend in Laravel/PHP, integrated with a dynamic React frontend optimized via Vite.
- Engineered a normalized SQL database schema to handle complex product, user, and transaction data at scale.

- Delivered responsive, accessible UI components ensuring seamless user experience across all devices.

TECHNICAL SKILLS
